CAREER OBJECTIVE

I aspire to secure a challenging role in software development where I can apply my technical knowledge and problem-solving abilities. I am eager to embrace emerging technologies, contribute to impactful projects, and drive innovation. With a strong desire for continuous learning, I aim to grow both personally and professionally. My goal is to add meaningful value to the organization while evolving as a skilled developer.

EDUCATION

 **SNS COLLEGE OF TECHNOLOGY(Present)**
Bachelor of Engineering in Computer Science and Engineering | CGPA: 8.9

 **DIRAVIAM GIRLS HR.SEC.SCHOOL**
HSC (2021 - 2022) | Percentage: 84.1%
SSLC (2019 - 2020) | Percentage: 90%

TECHNICAL SKILLS

- **Programming languages:** Java, C
- **Frontend:** React.js, Next.js,HTML5 ,CSS, Javascript ,Tailwind CSS,
- **Backend:** Node.js , Express Js, Firebase,REST APIs , Mongo DB
- **Devops and Hosting:** Git , GitHub,Vercel ,Netlify
- **Cloud platforms :** AWS (S3)
- **Digital marketing:** Google analytics,SEO,All marketing strategies
- **UI/UX :** Canva , Figma , Flutter

WORK EXPERIENCE

Full stack development Intern at ACMEGRADE | Oct 2023 - Nov 2023

Developed a Ticketing System to track, manage, and resolve user issues efficiently in real-time. Implemented features like issue categorization, status updates, and admin-user communication. Enhanced operational transparency and response time using a user-friendly web interface.

Full stack development Intern at Nextone solutions | Mar 2024- May 2024

EmoTrack is an emotion detection system that identifies user emotions in real time through facial expression analysis. It integrates machine learning models with a user-friendly interface to provide accurate mood classification. The project aims to enhance emotional awareness and improve user engagement in digital environments.

Full stack development intern at iHUB | Aug 2024- present

BizBooks is a business accounting and inventory management system designed for small to medium enterprises. It streamlines tasks like billing, stock tracking, and financial reporting through a user-friendly interface. The project aims to simplify business operations and improve financial accuracy .with a stipend.

SOFT SKILLS

- Teamwork
- Problem-Solving
- Effective Communication
- Adaptability

PROJECTS

Modern Alcohol Detector

The Modern Alcohol Detector is designed to detect if students are under the influence of alcohol at entry gates. It uses sensor-based detection integrated with student ID authentication to log cases accurately. The system automatically sends alerts to the principal, promoting campus safety and discipline.

Farm to Market

Created a digital platform to connect farmers directly with buyers, eliminating middlemen. Enabled real-time product listing, price updates, and location-based delivery options. Aimed to improve farmer income, market transparency, and reduce agricultural waste.

ACHIEVEMENTS

- Microsoft Learn Student Ambassador
 - Campus Ambassador, Teachnook
 - ARP Award – 2024
 - Journal Publication at ICACCS, Sri Eshwar College of Engineering
 - Participated in various inter-school competitions
-

CERTIFICATIONS

NPTEL - Introduction to industry 4.0 and IOT

GUVI - Next.js , Node.js , React.js, Agile Fundamentals

PREPINSTA - C , Java , UI/UX

VOLUNTEERING

- NSS Volunteer at SNS College of Technology
 - Participated in over 15 NSS events at SNSCT, focusED on community service and social awareness
 - Vice President, Rotaract Club of Coimbatore Sparks
 - Led and participated in 5+ old age home visits, contributed to social outreach and emotional support initiatives
-

AREA OF INTEREST

- Full stack Development
 - UI/UX Design
 - Digital Marketing
 - Testing
